

# Lorenzo Frangi

CEO & FOUNDER

HQ: ITALY

**Springa** is a startup founded by designers and engineers developing autonomous robotic tools for digital fabrication.  
Thanks to **Goliath CNC** you can simply load your favorite CAD files via wi-fi, set your parameters and let Goliath do the rest of the work for you.

# Rolf Schmitz

**COLLECTIVE CRUNCH**

HQ: FINLAND

**CEO & CO-FOUNDER**

**CollectiveCrunch** is a leader in AI for the forestry industry. It 'collects' climate, geo and process data to 'crunch' this information for deeper **insights** and **prediction**.

It helps the forest industry to become more efficient in their use of natural resources.

# Xavier Crouilles

COO

INSPI3D

HQ: FRANCE

INSPI offers out-of-the-box solutions for furniture professionals. INSPI offers a 3D sale point, CRM, 3D configurator and AR planning for a full experience.

They develop a platform designed to showcase your products and reflect their endless configuration possibilities.

# Miguel Reynolds

CEO & FOUNDER

HQ: PORTUGAL

Corkbrick goal is to improve people's lives by simplifying the way people create and recreate the spaces they live, with a clever and sustainable solution. They created **7 different** cork bricks, named «**Brocks**», that empowers us all to build walls or furniture with no tools, no screws and no glue.
